HANDBUCH DER HYGIENE

in 10 Bänden.

Herausgegeben von **Dr. med. Theodor Weyl** in Berlin.

Das **„Handbuch der Hygiene“** stellt sich nicht in den Dienst einer bestimmten Schule, sondern will sich einen möglichst unparteiischen Standpunkt bewahren; es sind deshalb die Vertreter der verschiedensten Schulen zur Mitarbeit an demselben aufgefordert worden. Für die *Kapitel praktischen Inhalts* wurden vorzugsweise solche Mitarbeiter herangezogen, welche durch ihre berufsmäßige Beschäftigung besonders geeignet waren, das übernommene Thema zu bearbeiten. Es ist deswegen ein großer Teil der Herren Mitarbeiter aus den Reihen der Architekten und Ingenieure gewählt worden. Wo indessen bei einzelnen Kapiteln neben der Bearbeitung durch die Techniker die Mitarbeit des hygienisch ausgebildeten Mediziners erforderlich war, hat der Herr Herausgeber eine Verteilung des Stoffes vorgenommen, und es wird ihm hoffentlich geglückt sein, die Zuständigkeit des Mediziners einerseits und die des Technikers andererseits in zutreffender Weise zu begrenzen.

Die *Gewerbehygiene* soll entsprechend ihrer Wichtigkeit eine besonders eingehende Bearbeitung finden; Abschnitte wie *Strassenhygiene, allgemeine Bauhygiene* und *Wohnungshygiene* werden eine so ausführliche Darstellung finden, wie sie bisher in deutscher Sprache wohl noch nicht versucht wurde.

Der *Bakteriologie* als solcher wurde eine besondere Abteilung nicht gewidmet. Sie erscheint aber als eine der zahlreichen Methoden, deren die Hygiene bedarf, in allen denjenigen Kapiteln, in denen sie, wie in der Lehre vom Boden, vom Trinkwasser, in der Theorie der Infektionskrankheiten, zur Lösung der hygienischen Fragen ihre Hilfe leiht und häufig den Ausschlag giebt.

Das **„Handbuch der Hygiene“** soll in etwa 10 Bänden im Gesamt-Umfange von 200 bis höchstens 250 Druckbogen erscheinen.

Die Bände werden in der nachstehenden Einteilung herausgegeben werden:
